## Competency Testing

**Immucor is supporting the Blood Bank Laboratory by providing convenient and comprehensive competency test kits.**

- Earn valuable CE credits for testing; up to 3 CE credits available
- Provides samples that enable labs to educate and/or monitor the competency of technologists who perform tests; saves the blood bank the labor of sourcing and identifying samples
- Offers cases and samples that range in complexity; provides laboratories with competency kits for technologists with varying levels of blood bank experience
- Provides laboratories with a convenient method for monitoring competency to help you remain compliant with competency requirements
